AirTies Air 4820 Wins 2014 CSI Award for Best Customer Premise Technology

Amsterdam, The Netherlands – [AirTies Wireless Networks](#), a leading supplier of advanced wireless and OTT/IPTV technologies, is delighted to have been chosen as winner of this year's CSI Award for Best Customer Premise Technology by a jury of independent industry experts. This sought after accolade acknowledges AirTies' Air 4820 wireless video bridge as a game changer by increasing both wireless performance and range within the home.

The Air 4820 wireless video bridge provides a highly cost effective way of upgrading the installed base of home gateways and routers to 5GHz 802.11ac performance and extending coverage throughout the home using advanced beam-forming technology.

Bulent Celebi, Chairman and co-Founder of AirTies, said: "We are thrilled to have won this prestigious industry award for Best Customer Premise Technology. It shows that our product is the best wireless solution for the home that IPTV and Pay-TV operators can offer to their customers. The Air 4820 meets consumers' demands for video performance while being the world's fastest 11 ac video bridge device."

The CSI Awards are among the industry's most coveted, comprehensive and competitive technology awards, widely respected and judged by leading experts in the field. They reward technical and product marketing excellence across the cable, satellite, terrestrial broadcasting, mobile and IPTV sectors. This year's CSI Awards winners were announced during IBC in Amsterdam, on September 12, 2014.

To see the winning product visit AirTies at IBC, Amsterdam RAI, until September 16th in Hall 5 on stand 5.B33.

About AirTies

AirTies was founded in 2004 by a senior management and technical team from Silicon Valley, with the strategic intent to become the market leader for the wirelessly connected home. AirTies designs and develops its own software and hardware, wirelessly streaming high definition video to multiple rooms and screens. The comprehensive product portfolio includes broadband Internet devices and Internet based television set top boxes. Its award winning technology enables seamless wireless integration at the touch of a button, as well as 100 percent internet wireless coverage in homes.

AirTies has an install base of over 10 million devices worldwide. More information is available at www.airties.com
