

## **AirTies Chosen as a 2015 Red Herring Europe Winner**

**Amsterdam, Netherlands – 16 April 2015** - Red Herring announced its [Red Herring Europe](#) award winners today, recognizing Europe's leading private companies and celebrating these startups' innovations and technologies across their respective industries.

Red Herring's [Top 100](#) Europe list has become a mark of distinction for identifying promising new companies and entrepreneurs. Red Herring's editors were among the first to recognize that companies such as Facebook, Twitter, Google, Yahoo, Skype, Salesforce.com, YouTube, and eBay would change the way we live and work.

“Selecting startups that show the most potential for disruption and growth is never easy,” said Alex Vieux, publisher and CEO of Red Herring. “We looked at hundreds and hundreds of candidates from all across the continent, and after much thought and debate, narrowed the list down to the Top 100 Winners. Each year, the competition gets tougher but we believe AirTies demonstrates the vision, drive and innovation that define a Red Herring Top 100.”

Red Herring's editorial staff evaluated the companies on both quantitative and qualitative criteria, such as financial performance, technological innovation, management quality, overall business strategy and market penetration. This assessment was complemented by a review of the track records and standings of similar startups in the same verticals, allowing Red Herring to see past the “buzz” and make the list a valuable instrument of discovery and advocacy for the most promising new business models in Europe.

## **About AirTies**

AirTies was founded in 2004 by a senior management and technical team from Silicon Valley, with the strategic intent to become the market leader for the wirelessly connected home. AirTies designs and develops its own software and hardware, wirelessly streaming high definition video to multiple rooms and screens. The comprehensive product portfolio includes broadband Internet devices and Internet based television set top boxes. Its award winning technology enables seamless wireless integration at the touch of a button, as well as 100 percent internet wireless coverage in homes.

AirTies has an install base of over 10 million devices worldwide. More information is available at [www.airties.com](http://www.airties.com)
